Rui Coelho Senior Data Engineer | Data Architecture | Databricks | Azure

Portfolio | ruicoelhor22@gmail.com | Portugal | LinkedIn

Senior Data Engineer experienced in designing Azure Databricks lakehouse solutions, owning end-to-end data delivery and providing technical leadership in international environments. Master's graduate focused on data architecture, governance and Data Spaces.

PROFESSIONAL EXPERIENCE

FRONTWELL SOLUTIONS GMBH

Senior Data Engineer | Germany / Remote| July 2026 – Present

- Lead the end-to-end delivery of scalable data products on Azure Databricks, from requirements gathering and data modelling to production deployment.
- Design lakehouse architectures and build ingestion, transformation and orchestration workflows using ADLS, Databricks, PySpark, SQL and dbt.
- Partner with business and technical stakeholders to translate requirements into architecture decisions and production-ready solutions.
- Line-manage and mentor Data Engineers, supporting onboarding, goal setting, technical reviews and engineering standards.

Data Engineer | Germany / Remote| October 2025 – July 2026

NORDEX SE

Data Engineer | Germany / Remote | November 2023 – October 2025

- Designed a centralized master-data platform processing data from 20,000+ wind turbines and 5M+ daily records, supporting migration to Azure Databricks.
- Optimized Spark and Databricks workloads through cluster tuning, memory optimization and Medallion Architecture across Bronze, Silver and Gold layers.
- Administered SQL Server environments, including RBAC, stored procedures, database design and performance optimization.

ADIDAS

Solution Architecture Intern – Data & Analytics | Porto, Portugal | July 2023 – September 2023

- Developed a proof of concept for data contracts between data products within a lakehouse architecture.
- Built the prototype using Python, Collibra REST APIs and Databricks, exploring data governance and contract management.
- Worked within an international Data & Analytics team using Agile and Scrum methodologies.

EDUCATION

UNIVERSITY OF MINHO | Guimarães, Portugal

Master's Degree in Engineering of Information Systems | Sep 2023 – April 2026

- Thesis: *Proposal of an Approach for Inter-Organizational Data Architecture: Data Spaces*

Bachelor's Degree in Engineering and Management of Information Systems | Sep 2020 – June 2023

SKILLS

- **Engineering & Cloud:** Databricks, Apache Spark, PySpark, SQL, dbt, Kafka, Microsoft Azure, ADLS
- **Architecture & Governance:** Lakehouse Architecture, Data Architecture, Cloud Migration, Data Modelling, Data Products, Data Contracts, Data Governance
- **Programming, Tools & Analytics:** Python, Scala, R, Git, Azure DevOps, CI/CD, Docker, REST APIs, Pandas, Power BI
- **Certification:** Databricks Certified Data Engineer Associate
- AI & Emerging Technologies: Generative AI, Prompt Engineering, Large Language Models (LLMs), AI Agents
- **Languages:** Portuguese (Native), English (Fluent), Spanish (Intermediate)
